## TO WHOM SO EVER IT MAY CONCERN

It gives me a lot of pleasure to recommend Dr. Prabhat Kumar Mishra for the Post of Lecturer, at your esteemed University. I have known him for the past 3 years and 5 months as a Junior Research Fellow and 1 year and 6 months as a Senior Research Fellow while I was Principal Investigator of a DBT major research project in which he worked. He has successfully completed his doctorate degree under my supervision and presently he is continuing his post doctorate research in my laboratory on fungal molecular biology.

During our association he has impressed me with his ability to tackle analytical and logical problems efficiently. He has shown a deep and abiding interest in the experimental and practical aspects of the subject along with sincerity and hard work reflecting his potential for science. I find him able to convince the listener of his point of view, which has been demonstrated in his seminars. He has tremendous energy and boundless enthusiasm to actively participate in, as well as plan and organize various scientific events. He has a very friendly and pleasant nature making him easily approachable and easy to communicate.

Apart from these qualities he has good knowledge and working experience in Bio-process engineering and Recombinant DNA technology.

I strongly recommend his candidature for the post of Lecturer in your University. I wish him good luck in all his future endeavors.

Yours truly,

  
(S.S. Sandhu)
