AGENDA FOR DISCUSSION OF THE DAY

Date: 11/06/21

The Discussion of the day is scheduled on **Saturday, 12th June 2021** at 2.00 pm in the computer lab.

Name	Topic
Dr. Jitendra Bajaj	COVID-19 and the rapid rise of genetic sequencing

All the faculty members are informed to attend the same. The points of discussion after the seminar are as follows:

1. Reliability of the subject.
2. Understanding of the subject (oral and presentation).
3. Discussion on the content of the topic such as relevance and quality of the provided.
4. Discussion on any relevant information pertaining to the topic.

Abstract: Background: The drug delivery by versatile types of self-assembled micelles for tumor treatment, which improved the diagnostic and therapeutic effectiveness, is advocated. However, despite the numerous advantages, applications of most micelle system have been retarded by low *in vivo* bio-stability which led to premature drug release and nonspecific tissue accumulation. To date, a range of chemistries has been introduced in intermolecular non-covalent/covalent crosslinking strategies for these dynamic nanostructures to produce robust functional nanoparticles with enhanced circulation stability and lower non-targeted organ toxicity.

Objective: We focused on recent developments in crosslinking polymeric nanoparticles in cancer therapy.

Methods: Types of chemistries used in the crosslinking strategies of the micelles are outlined and their enhanced drug delivery abilities are discussed.

Results: We reviewed one hundred and nineteen papers and discussed in six aspect. More than 30 examples have been carefully discussed.

Conclusion: Over the last decade, numerous of strategies for micelles crosslinking, such as disulfide coupling, free radical polymerization, physical interactions, chelation, and formation of microenvironment-responsive bonds, have been developed for enhancing micelles circulation stability, minimizing organ toxicity and achieving higher tumor targeting specificity. The application of these chemistries for micelle stabilizing might bring a new generation of versatile crosslinked micelles with enhanced therapeutic index and facilitate their further clinical translations.

Keywords: Nanomedicine, polymeric micelle, crosslinking strategy, EPR effect, drug controlled release, cancer therapy.

1. INTRODUCTION

Polymeric materials have been extensively developed for cancer diagnosis and therapy in the recent decades [1-7]. Micelles formed by synthetic polymeric materials are with remarkable applications in biomedicine due to the unique advantages. First, the polymeric materials formed nanoparticles could substantially increase the solubility of hydrophobic in plasma without the inclusion of any organic solvent or other toxic surfactants, thereby greatly improving the bioavailability of these drugs [8, 9]. Second, the anti-cancer efficacy

of nanoparticles is expected to be increased by the enhanced permeability and retention (EPR) effect [10]. Instead of tightly-knitted endothelial lining in the normal tissues, the leaky vasculature, and dysfunctional lymphatic drainage were found in most of the solid tumor tissues. Nanoparticles with size from approximately 10 nm to 100 nm preferentially extravasate across the tumor endothelium and accumulate in the tumor tissues. Moreover, polymeric nanoparticles formulation could reduce the accumulation in normal organs and reduce the side effect when compared to the parent drugs. Nanoparticles were usually designed to be coated with hydrophilic polymers, most notably poly(ethylene glycol) (PEG) [11, 12], to provide steric stabilization and prevent reticuloendothelial system (RES) uptake, in which drugs are rapidly shuttled out

Bridging the Knowledge of Different Worlds to Understand the Big Picture of Cancer Nanomedicines

Vimalkumar Balasubramanian,* Zehua Liu, Jouni Hirvonen, and Hélder A. Santos*

Explosive growth of nanomedicines continues to significantly impact the therapeutic strategies for effective cancer treatment. Despite the significant progress in the development of advanced nanomedicines, successful clinical translation remains challenging. As cancer nanomedicine is a multidisciplinary field, the fundamental problem is that the knowledge gaps stem from different vantage points in the understanding of cancer nanomedicines. The complexities and heterogeneity of both nanomedicines and cancer are further demanding the integration of highly diverse expertise to develop clinically translatable cancer nanomedicines. This progress report aims to discuss the current understanding of cancer nanomedicines between different research areas in terms of nanoparticle engineering, formulation, tumor patho-physiology and clinical medicine, as well as to identify the knowledge gaps lying at the interface between the different fields of research in nanomedicine. Here we also highlight for the necessity to harmonize the multidisciplinary effort in the research of nanomedicines in order to bridge the knowledge and to advance the full understanding in cancer nanomedicines. A paradigm shift is needed in the strategic development of disease specific nanomedicines in order to foster the successful translation into clinic of future cancer nanomedicines.

1. Introduction

Cancer remains one of the leading cause of deaths worldwide.^[1] Current therapies in the clinics such as chemotherapy, radiotherapy and surgery, can provide only limited survival benefits to the patients. In recent years, the advances in

nanotechnology have offered unprecedented opportunities to advance the treatment of various diseases, including cancer.^[2–7] The application of nanotechnology in cancer therapy, herein referred as cancer nanomedicines, have received wide spread attention due to the unique physicochemical properties of the nanoparticles with the ability to deliver different therapeutics (e.g., chemotherapeutics and biologics), altering their pharmacokinetic profiles, augmenting their accumulation in the tumors and reducing their toxicity profiles.^[8–11] Nanomedicines aim to improve the balance between therapeutic efficacy and systemic toxicity of conventional chemotherapeutic agents, which lack of specificity, thereby enhancing the therapeutic index of the anticancer drugs. In clinical cancer care more evidences have been suggested that nanoparticles found to be localized in solid tumors after the systemic (intravenous) administration of nanomedicines to cancer patients.^[9,12,13] In addition, compared to the conventional anticancer drugs, nanomedicine have

shown many benefits in terms of improved half-life in blood circulation, enhanced drug bioavailability with reduced side effects of the parental drugs. Anti-cancer nanomedicines are rapidly emerging as a promising approach and offers the possibilities to the clinicians to overcome the limitations of current cancer therapy.^[14–17] In this direction, an array of nanomedicines has been synthesized, engineered with different physicochemical properties, such as size, shape and surface chemistry, and formulated with a large variety of anti-cancer therapeutics, including surface modifications with, e.g., polyethylene glycol (PEG) or other coatings, in order to extend the circulation time of the nanomedicines in bloodstream.^[18–20] Various targeting moieties, such as antibodies, peptides, sugars and proteins, have also been attached to nanomedicines in different ways to further facilitate their selective accumulation within the tumors.^[21,22] Furthermore, more complex and advanced nanomedicines designs equipped with multiple functions, such as combined therapeutics, imaging, diagnostic moieties with programmed release, have also been developed to improve the therapy of cancer.^[23,24] Moreover, the pathophysiological properties of the tumors* enable the preferential accumulation of the nanomedicines through leaky tumor vasculatures and poor lymphatic drainage system.^[22,25,26]

AGENDA FOR JOURNAL CLUB

Date: 24/09/21

The Journal Club is scheduled on **Saturday, 25th September 2021** at 1.00 pm in the computer lab.

Name	Topic
Mr. Prem Samundre	Automated supersaturation stability assay to differentiate poorly soluble compounds in drug discovery

All the faculty members are informed to attend the same. The points of discussion after the seminar are as follows:

1. Reliability of the subject.
2. Understanding of the subject (oral and presentation).
3. Discussion on the content of the topic such as relevance and quality of the provided.
4. Discussion on any relevant information pertaining to the topic.

4	GNM	120
	Total	440

ANNEXURES NO. -III SYLLABUS REVISION

B.Sc. Syllabus was revised as per INC with semester and Grading system. B.Sc Nursing is a four year program containing eight semesters with Credits and Grading. Competency based curriculum has been implemented under three courses 1. Foundational courses (Applied basic and behavioral sciences), 2. Core Courses (Nursing Foundation, Community Health Nursing, Adult Health Nursing, Child Health Nursing, Mental Health Nursing, Midwifery/OBG Nursing) and 3. Elective Courses.

ANNEXURES NO. -IV

- Research Projects: 3rd year B.Sc students are divided in groups of 10 and research project is done under various guides.
- Research Projects: M.Sc students carry out Research project under guidance of specialized faculty.
- Students were posted in their communities between December 2021 and January 2022. Total number of B.Sc. Nursing IV students (96), as well as B.Sc. Nursing II students (100 Students) Students from the GNM I year (40), GNM III year (30), M.Sc. (N) I year (10 students), and

PU/DAA/Annual Academic Report/Oct21/Version-2

M.Sc. (N) II year (06 students) took part in the posting. Students visit nursing homes throughout their time in the community and are sent in rotation to RHTC and UHTC. Role-playing activities were used by many programmes to develop health education and awareness. 100 children attended the dental check-up camp in Indrapuri, Bhopal, while 200 students attended the health check-up camp in Beresia, Bhopal.

ANNEXURES NO. -V

For Advance Learner

- ❖ Motivating them to involve in research projects to inculcate research orientation and higher studies aspirations.
- ❖ Helping them to participate in group discussions, technical quizzes to develop analytical and problem solving abilities in them and thereby, to improve their presentation skills.
- ❖ Encouraging them to participate in National International Conferences and also to make presentations
- ❖ Students attended conference/workshop/seminar in other institutions
- ❖ Students organized and participated in Conference on theme “ Transitions”
- ❖ Students participated in various competitions at University & State level.

For Slow Learner

- ❖ Organize bridge classes and remedial programmes for them.
- ❖ Conduct extra classes for the difficult subjects (based on the previous university results) in the curriculum.
- ❖ Special attention is given to the students in the tutorial classes, who are identified as the slow learners.
- ❖ Slow learners are specially advised and counseled by a teacher guardian and the subject expert.
- ❖ Corrective classes are conducted for the weaker students based on the results of class tests.
- ❖ The students are given with training on communication skills, personality development, time management and motivational sessions.
- ❖ Provision of simple and standard lecture note. Question paper solving exercise done for slow learners
- ❖ Guidance & Counselling done for slow performers
- ❖ Individual attention for slow performers
- ❖ Mentor – mentee meetings conducted for slow performers

ANNEXURES NO. -VI

- ❖ ICT tools for teaching and learning cover **such as printers, computers, laptops, tablets, etc.** Teaching Learning Process including **online e-resources zoom classes, video conferencing, webinars.** Others Teaching Learning Resource are **Black Board. OHP, LCD, Bulletin Board etc.**

ANNEXURES NO. VII

**Number of Seminars/Workshops/Conferences/Symposiums(including Online) for the quarter:-
Conducted by Institute**

Dates (from-to) (DD-MM-YYYY)	Title	No. of participants
2 nd December 2021	State Level Conference Entitled "RESEARCH METHODOLOGY"	250
19 th February 2022	Seminar on World Adolescents Health Day on Theme "Transitions"	350
23 rd March 2022	Seminar on World Tuberculosis Day theme "Invest to end Tb. Save lives"	350
12 th May 2022	Seminar on International Nurses' Day	400
28 th May 2022	Seminar on World Thalassemia Day	400

ANNEXURES NO.VIII

Number of Workshops/seminars on Intellectual Property Rights (IPR)/ Research Methodology/ Good Clinical Practices/ Industry-Academia Collaborations – Attended by Faculty Members

Sl. No.	Name of Faculty	Title
1	Prof. Sheetal Das, Ms.AnkitaShayni Andrews	Virtual Webinar on "Covid-19, 2nd Wavw Precautions Vaccination & Preparation for 3rd Wave"

(57) Abstract :

The present invention relates to artificial intelligence based brainwave automation system. The invention uses a brainwave sensor which tracks the attention ratio of the patient to identify his/her emotional status. A display screen with various options for the patient to choose from is connected using Bluetooth with the sensor. The patient can easily communicate with the attention or request for service through his eye blinks. The prototype is built with two functionalities of food and panic alert alone. The same can also be extended with few of more functionalities of providing connectivity to entertainment and internet also by including simple options on the application screen. As the brainwaves are continuously monitored, any note of panic or abnormal signal identification can also be sent as notification to the caretaker.

LIBRARY AUDIT REPORT 2021-2022

As per the data collected on basis of Library audit of circular dated 27/05/2021. The following team audited the library from 27/05/2021 to 05/06/2022.

The library audit committee members are:-

- Prof. Babita Agrawal
- Mrs. Abina Joyce, Asso. Professor
- Ms. Shatabdi, Tutor

Milestones of the Library:

- The Library was started in 2006 and it is placed in College third floor.
- Ms. Geeta Verma appointed as a librarian in 2007 and she is carrying an experience of 15 years in library management system.
- Barcode enabled Circulation was introduced in 2007.
- CCTV cameras were placed in various places of the library in 2018
- Computer with Internet facility was started in 2006 for accessing electronic resources for research purpose.
- e-Library was introduced in the year of 2018. **The e-resource received from the suppliers are uploaded on the website and ensued that they are accessible to the users.**
 - DELNET & EBSCOS's (Share it with People's Medical College) in Year 2018. Yearly Renewal of the same is done
 - Membership of Library- All the student of the college becomes member in the library after their enrolment in to the course offered by the college.
 - All the registers of library functions were updated Audit has **compiled** during the given period of time
 - All the library materials are physically checked and verified
 - Physical condition of the books are checked.
 - Books which are torn and pages displaced were maintained by binding
 - All the library materials are placed respectively to the allotted racks and admirers
 - No loss of any library material found

Recommendations for Library Services

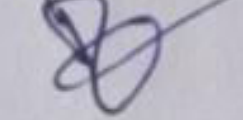

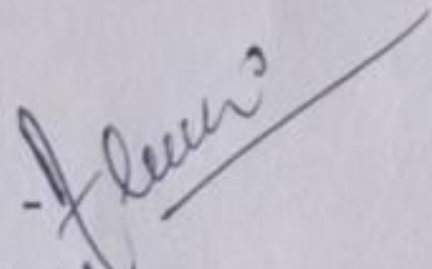

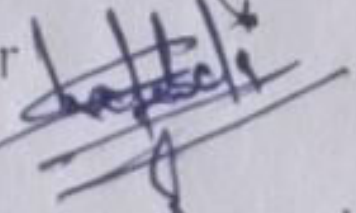

- Periodical and circulation session need to be strengthened to attract students.
- Proper orientation to students about internet facilities is needed.
- **Urgent requirement of Journal subscriptions both national and international.**
- Sufficient orientation is needed for the staff on library services, which will enable them to guide their students
- Catalog of library resources for each department could be prepared to facilitate effective library utilization.
- Update all the computers for the accessibility of the services.
- To accessibility to take photo copy in the library (Xerox) & installment of printer.

Recommendations of the Students to improve Library Services in the College

- Subject oriented new books and reference for all the department books to be increased.
- To have Competitive exams related books like MPPSC, AIIMS, Railway Nursing, Army Nursing, Overseas examinations (IELTS & OET, NCLEX-RN, MOH, DOH, HAAD, NHRA, PROMETRIC) to be increased.
- To have online services and information about arrival of new books
- The system slow down at at peak times, which often happens.
- Lack of Indexed/Peer reviewed journals.
- The systems are out of Updation
- The thesis of both UG & PG (Batch 2019- 2020) & 2021-22 library copies are pending for its submission.
- Deprivation of Magazines, Rare books & encyclopedias which is also a requirement or utilizing library effectively.
- Requirement of 6 More Computers in Library as the student strength is 100 in batch of UG.
- Permanent requirement of Peon for library cleaning and maintaining book racks

Minutes of Meeting Held on 13 March 2021

A meeting was held on 13 March 2021 at 3:00pm in the presence of Principal Prof. Rekha Rani Gupta and Vice-principal Dr. Sunita Choubey along with other Faculty members.

The Agenda of the meeting was as following

* Academic Progress

* SNEA Events Celebration

The presiding officer greeted all and initiated meeting.

* Feedback taken from respective Lab incharge on Lab maintenance.

? * Coordinators are asked to get the requirements list from Mrs. Joye Peter as coordinators don't have it.

* Coordinators are asked to complete all batches Health records & Health checking too and to talk to Dr. Anil Kishore

* Library Committee members are asked to submit the purchase list by 17th March 21.

? * HODs are asked about submission of requirements

* Feedback Asked for slow & fast learners list ready as there was no reply from coordinators, prof. etc

- DATE _____
PAGE _____
- to do follow-up & inform Madam.
- * coordinators to see that low attendance of the students should be signed quarterly, by the principal.
 - * Mrs. Mariyam Gomes has asked about the Seminars and she said that classes are going on.
 - * counselling registers ^{has} to be maintained and recorded updated by respective class coordinators.
 - * Subject teachers are asked to give feedback on Unit-test Scoring.
 - * Feedback on all batches final year MA examination has taken except B.Sc (U) I year, all results are out.
 - * class coordinators to note that the respective batches re-registration is complete.
 - * Feedback taken from Prof. Venice regarding Unit plan submissions and she said that the work is going on after the first correction by principal.
 - * All HODs to submit the list of assignments from all the batches including post basic B.Sc Nsg. All are asked to note the evaluation criteria for the same. But faculties said that students are already started preparing the casebooks purchased & its planned for the next coming academic session.

- * Academic Council ^{Committee} has asked for assignment development, & will do submit within 2 weeks of time.
- * Academic Council Committee to prepare the format clinical & theory evaluations.
- * For Lab projects, students should be divided equally under five departments.
- * Mr. Punder to purchase the Camera adjustable device (stand)
- * Bandaging class for B.Sc(N) - 1 year to report to Madam.

on 2/12/24

→ As already of faculty under the leadership of Prof Verma have gone to the chancellor and reported false things as below -

- 1) I humiliate faculty
- 2) I hold them after 04 pm
- 3) I keep hanging on phone
- 4) I don't tell anything to my favorite
- 5) I posted Mrs Babbar to CHN posting.

→ Prof Verma calls HR, and on her one phone call Mr Shivendra comes into college

→ Prof. Verma always picks up dispute without finding complete details about the incident. In one of the meetings she pointed out that faculty does everything including time table making, it all to be done by Admin staff. Faculty is overworked.

It was then explained to her that following list of work, which was done by faculty has been already given to Admin —

- 1) TC making
- 2) Migration making
- 3) Course completion making
- 4) Admission register
- 5) Students documents keeping & handing over
- 6) worksheets keeping / handing over
- 7) TNAI card keeping & handing over.

→ Cross questioning in meeting is not accepted official decorum, also the counter awareness. In the position of next senior faculty, it is not in favour of institutional administration.

Observing above incidences, all faculty have started disrespecting, giving backhandedness instantly and not completing the given task in time. The quality of work has reduced.

Minutes of Meeting Held on 15 March 2022

A meeting was held on 15th March 2022 at 10:30 AM in the Conference Hall in the presence of principal madam and all other faculty members.

There were 21 faculty present except Mr. Deepika Bahu, Asso. Prof. The presiding officer greeted all and initiated the meeting.

The details of minutes are as follows:-

Agenda of Meeting

Academics in General

- PGM

- Sessional Examination Results

Sessional Examination Results:-

The overall results for all the courses like B.S.W, M.S.W and B.N.M Nursing had poor performance in the sessional examination. So, class coordinators are asked for the explanation for the same.

Feedback from respective class coordinators are taken and general

opinion from the faculties mentioned here 1, students are least interested as studies due to poor attendance.

2, Frequent absenteeism is another reason

3, During lock down period, that pertaining year final examination was not conducted and students got 'All promotions'

4, Parents of many students absent during the PTM days.

For, M.S.C.W) - I & II coordinators are asked to get the explanation from the students for the poor performance in the ^{sessional} examination.

Three main strategies were adopted as ^{various} solutions for the student's improvement

First of all, identify the problem students are facing for the poor performance. Secondly, teachers to have 'One-to-One' interaction or 'Outcome-oriented Teaching' methods to enhance learning.

Lastly, do counselling to students and Mentor-Mentee functioning.

Student
submit
till 10/1/21

for the improvement of students.
- Class coordinators and subject teachers to have counselling registers and maintain it.

- There were discussions on Question paper formulation.

Many of the question papers were found not following the 'blueprint' of question paper formulation so, those corrections were discussed and asked to correct and improve further.

The meeting adjourned at 12:00 PM
Respectfully Submitted,

Mr. Abhinav Joyal

In Repeated reminders and
discussion on formulating a paper,
 since last year total 5 times the exercise
 is done - following observations made -

1. The desired unit/syllabus not covered completely
2. CO's/LOs not followed
3. Questions were not applied
4. Question break down was not there.

Prof Verma, VC internal exams,
 did not check all these and
 forwarded the same to UOI.
 Q-paper pattern was not similar.

After 5 times exercise, the desired
 output not achieved.

→ Mrs Manjari, Asso Prof. back answered
 that other faculty also calls students
 in staff room (on asking that why she
 was attending student in staff room) and
 continued arguing in meeting as well.

→ Mrs Abino, Asso Ref. said following to Librarian -

- I am not drawing yourself.
- why sent mail to me.
- I cannot do lib. work again & again
- You do, I don't have time.

Wherever lib work is given to Mrs Abino, lot of resistance is fed. She is in lib committee, so work is given to her (& to Mrs Babito).

With great difficulty the list of books was finished (for purchase) with her

People's University

Bhanpur, Bhopal

Meeting Minutes of the 22nd "Board of studies "meeting held on 09th December 2021 at the Council room, New building, PCPS& RC at 3:30pm.

Agenda

- Review of Previous meeting Minutes
- Proposal of New Paramedical diploma programs
- Review of Value Added Program

All the members of Board of Studies were welcomed by the chairman. Meeting commenced with the permission of chair. Following agendas were discussed in the meeting:

Review of Previous meeting Minutes: Review of Previous meeting minutes was done & approved.

Proposal of New Paramedical diploma programs

BOS principally approves the proposal of following Paramedical Diploma Programs:

- a. Diploma in Cath Lab Technician.
- b. Diploma in Anesthesia Technician
- c. Diploma in X ray Radiographer
- d. Diploma in Optometric Refraction Technician

Ordinance draft, Syllabus, & scheme of study &/or examination had approved by the BOS, Paramedical & shall be forwarded to Dean Faculty, Paramedical for further considerations.

Review for Value Added Program: BOS reviewed the value added program conducted at Paramedical, & found it satisfactory. Same value added program shall be continued for the succeeding session.

The meeting ends with the vote of thanks to chair.
