#### INTRODUCTION

Department of Child Health Nursing was established in 2006 with the intake of B. Sc Nursing students (100) and in 2021 M.Sc. Nursing and P.B.B. Sc Nursing. The key objectives for the subject of Child Health Nursing are developing an understanding of the modern approach to Child Health, identification, prevention, and nursing management of common Child Health Nursing problems with special emphasis on therapeutic interventions for individuals, families, and communities. Department promotes quality teaching and attentive and accurate training by the department faculties.

## PEOPLE'S COLLEGE OF NURSING AND RESEARCH CENTRE

### VISION

The vision of our department in People's College of Nursing & research centre to be a universal leader for innovations, research, education, attitude, and practice to create positive changes in Child Health care settings and better outcomes by training the nursing students competently. Child Health Lab will be a focus of excellent training and practice for Child Health new born care assessment, education, counseling, and research.

### MISSION

To fulfill our vision, we are catalysts for optimizing Child Health care through nurse-led health care by integrating education, application, research, and technology to create innovative solutions and to prepare psychiatric nurses for global Child Health nursing care to improve health for all.

Based on the department mission, Child Health Lab will provide a suitable environment where the students can learn and apply cognitive, psychomotor, and social skills, and instructors can guide with proper study skills and measure the student performance and competency.

### LAB OBJECTIVES

1. Reinforce learning through practicing Child Health procedures.
2. Provide hands-on training experiences specific to course objectives as directed by the nursing curriculum.
3. Prepare educational materials for awareness creation among people in the hospital and community.
4. Prepare the nursing students before the introduction to hospital training
5. Offer independent student learning opportunities.
6. Promote evidence-based nursing practice through novel research applications.

### LAB LAYOUT

Department is currently placed on the I floor of the college. A Child Health lab for 900 sq. is also associated with the department on the I floor. The lab offers facilities to practice and learn a wide range of Child Health nursing skills in a safe environment

### PURPOSE OF POLICY & PROCEDURES

1. Policies and procedures are proposed to guarantee that the Child Health Lab is maintained as an efficient learning area for students' training and assessment of Child Health problems.
2. Maintenance and Policy & Procedures must be followed by all its users.
3. The Lab promotes safe and effective practice by demonstrating and reinforcing the highest level of performance and readiness.
4. Strategies are skill demonstration, practice and return demonstration, case scenarios, consistent use of medical terminology; application of the nursing process in skill.
5. Performance, care plans, documentation, audio and video-assisted teaching; and individualized instruction.

## PEOPLE'S COLLEGE OF NURSING AND RESEARCH CENTRE

### CHILD HEALTH DEPARTMENT TEAM RESPONSIBILITY

Prof.Satly Shaju-HOD	OVER ALL RESPONSIBILITY
Mrs.Mariyam Gomes-Asso.Prof.	Super of all Department activities
Mrs.Abina Joyce - Asso.Prof	Coordination of all Department activities
Ms.Arti Patel-Tutor	LAB INCHARGE
Ms.Priya Tiwari- Tutor	LAB INCHARGE

### JOB DESCRIPTION OF MEMBER
